SUBJECT: Preliminary Assessment for Isspro Instruments Sales & Service. ✓

The preliminary assessment of Isspro Instrument Sales and Service was done after a site investigation and an interview with the operator. Isspro is engaged primarily in the sales and service of automotive instruments.

Isspro Instrument Sales and Service is located in Commerce City, Colorado on the south side of 49th Avenue, west of the intersection of 49th Avenue and Niagara Street. The site contains one building and a paved parking/storage area.

The solvent used on site is safety solvent, a unchlorinated mineral spirit. The solvent is stored and used inside the building. The supplier is responsible for the disposal of the spent solvent.

Due to the above facts it is recommended that no further actions be taken at this site.

If you have any questions or require more information please do not hesitate to contact me.
